

## Pump Tune Up

If your pump isn't working as it should, your entire crew could be out of commission. Keep your pumps in top condition with the Pump Tune Up. We'll replace the key gaskets, u-cups, bushings, valve disc and the screen to restore it to peak working condition. We'll also give it a professional cleaning, lubricate all the moving parts and adjust the tool to factory settings. The following parts will be changed as part of this Tune Up:

Quantity	Item	Description
<b>For the 72TT Pump</b>		
1	700033F	Coarse Mesh Screen
1	700049	Gasket
1	700010F	Valve Disk
1	729060	Gasket

**Important:** If your pump has other key parts with excessive wear such as the head or the main tube, the Tune Up may not restore the tool to perfect working condition. Our Expert Technicians will advise you of any recommended additional repairs when the tool is examined.

**Superseded Parts Policy:** As part of our continuous product improvement, certain parts are sometimes superseded by an improved or updated part. In these cases, the actual model numbers of the parts we replace may differ from those listed in this literature but we guarantee that all the parts listed for each repair package will be replaced in regards to placement and function within the tool.

**Warranty on Repairs:** We warranty all repairs will be free from defects in parts and workmanship for a period of 1 year from the date of the repair. This applies only to the specific parts that were replaced as part of the repair.
